

Vano finito 391 x 154 cm - 6.50 mq - perimetro 12.86 m - rivestimento interno 2 cm - piastrelle 90x90

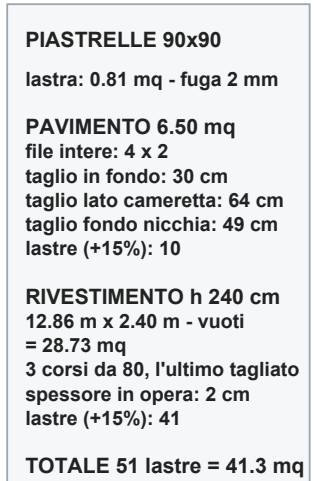

Diagram of a beam of length 3 m. The beam is supported by a pin support at $x=1$ m and a roller support at $x=2$ m. A uniformly distributed load of 10 kN/m is applied over the segment from $x=1$ m to $x=2$ m. The load is represented by a white rectangle on a black beam.
